“ Had some great times with Roy when we were young and living in Metairie. We shared many laughs and adventures together. I always looked up to Roy for his many talents and projects we did together from building a boat at his parents house to flying small gas powered planes on Sundays in City Park. He was a good person and will be missed.

“ Our memories of Roy and Rosalyn go back to the 1070’s. We were their neighbors that lived across the street. Our first born, Keith, and their first born, Chad, were born three days apart. (Chad April 7 and Keith April 10, 1979). They were wonderful neighbors and we got to know them well. We fished together, our children played together and we babysat for each other. Roy was definitely a “Jack of all trades”. He sold us our first boat, he laid our first carpet, and taught Paul many mechanical things. I can recall one fishing trip we went on with them in their boat and Rosalyn went to cast and caught the boat keys and almost threw them overboard. Roy was a very dear friend and we will miss him. “ My favorite story with Roy was 3 years ago at the airfield. I arrived and Roy was there. We talked for over 30 minutes about model aviation and how we each got into the sport. At some point he brought up his Uncle who owned a hobby shop in Metairie, I asked him his Uncle's name..he said " Bernard". It was only then we realized we were cousins who had not seen each other in a very long time, we sat for another hour catching up. Since then we became far more than just family, the following years we shared many a cool afternoon flying, tinkering with aircraft and the kind of bond unique to anyone involved in aviation at all levels. Roy earned his wings at our field as a pilot, he earned his wings has a friend and now may God lift him to bluer skies on a gentle tailwind of love to speed him home.

My greatest sadness is for those who now have to be without him for a time, he is sorely missed, and forever loved.

“ Dearest Rosalyn and family,

I write this with a broken heart as I know yours must be. Roy was part of my life for nearly thirty years, when I married 26 years ago, he became part of our family, and when we met you years ago, then all of the Chauvins became precious family friends.

Here is my memory of Roy Chauvin, a friend, computer guru, and all around extremely talented and amazing man

About 30 years ago, the state agency I work for, installed new computer in each office. I looked at the thing on my desk for six months until I got brave enough to turn it on. No lessons, no tutorials, no hints or guidebooks...just on-the-job-training at its worst.

I told my boss about my confusion and he suggested the guy who was helping him, a Mr. Chauvin. I asked if he was a computer tech and he said no, he' installs carpet. Well, I called Mr. Chauvin and within a short period of time I was clicking away. There was no stopping me because Roy taught me how to creat websites and o make the computer work for me and accomplish all kinds of amazing things.

It wasn't long until I had a few websites I was doing for organizations and people, plus doing all kinds of graphic designs for my job in Baton Rouge and at home. Mr Chauvin tried his best to teach me how computers worked, but my eyes would glaze over and all I cared was what I could create.

So for 30 years, he has been my go-to person for anything technical. When I needed new equipment I would just ask what he was using and then bought the same thing.

Rosalyn, a light has gone out in our world, but how can we be so sad because we know where he is and who he is with. His light now is so bright that it can't be measured.

John and I will miss him, but I will treasure the time he took to educate me and inspire me. He kept us up and running and was never too busy for us to come by or to make a visit to us.

I will see you tomorrow. I send my love and prayers for you and children, in-laws and grandchildren.
