

## Beverly Partin Armand

March 29, 1952 - January 25, 2023

Beverly P. Armand

Beverly, age 70, passed away on Wednesday, January 25, 2023. She was a resident of Baker, LA. Beverly lived life to the fullest and was always up for an adventure. She loved music, especially dancing music. Beverly would grab whichever family member she was with, compel them to dance with her wherever they may be at the time; indoors, outdoors, parking lots, meadows, daytime, nighttime... she absolutely loved her music and loved to dance. Beverly never met a stranger. It seemed that no matter where she was, Beverly either knew someone there or before she left she made several new friends. Beverly liked gardening and being outside in the fresh air. She always cared for everyone and was happiest if she could serve you a meal. Beverly loved to be surrounded by her loved ones and just adored all of her grandbabies. She was a wonderful mother and one of a kind grandmother that will be deeply missed.

Beverly is survived by her daughters, Robyn D. Manske, Ashley N. Lofton; son, Cody L. Armand; and grandchildren, J. "Hunter" Pourciau, Jazmine N. Armwood, Angel L. Lofton, Ashlynn N. Voytas, Johnathan L. Armand, Harlee A. Armand, Chloe A. Lofton, N. "Connor" Pourciau, Easton P. Pourciau, Khloe A. Montecino, and Kaia A. Montecino; mother, Ruby L. Partin; brothers, Douglas W. Partin, and Earnest W. Partin.

Beverly is preceded in death by her father, Douglas W. Partin; and brother, Donald E. Partin.

“ *Bev was my favorite cuz. I would go down to Baker almost every summer and spend a few weeks. We had the best times, walking to the store, meeting boys going to Thunderbird Beach, sneaking off to New Orleans to Mardi Gras (we got in big trouble that time) dancing to Woolly Bully and the House of the rising Sun. We went to see Gone with the Wind one summer, it became one of my all time favorites. Aunt Lucille was always my favorite aunt because she always put up with our shenanigans. When Earnest was a baby, Bev and I claimed him as ours. I will always remember you with love and the fun in your heart and soul. Fly high my sweet, will see you in the skies one day. Love you always. Your cuz Sissy.*

“ *I met Bev in Pal Talk so very many years ago. She was an amazing soul, who always had a kind word and cyber hugs when you were down. She had a wicked quick sense of humor and could keep a room full of people rolling. I never had the pleasure of meeting her in person, but she touched my heart and soul. One night in a pal talk room she popped in and said hello to a few people, and I got up on the mic and said "Hey Bayou Bev! What am I chopped liver?" and she said "Never free2bme you are Pate!" She called me Pate' from that day forward. I always loved the private convos we had with Bill (aspirit1). Bev was the best and I will miss her as I am sure her entire family and all her friends will. My heart is with you all as you go through this difficult time  
Blessings, Linda (free2bme)*

*“ I have so many memory's. We'ved laughed and cried together. Danced in the kitchen drive ways best was in the back of a tick up truck . We had many adventures threw the years. Even sat at the side of the road protesting trying to get family and friends in much needed Fema campers. She even made running from huricains fun . And many hours with one of us sick. I'll miss talking with her for sure. Hugs to all the family. Now she can fly in peace .*

*Oh where do I begin.. I met Beverly when her kids was in school, and what a wonderful dance mom she was. She was so care free. I loved her and we had many laughs together. We lost contact after her kids graduated, but thought of her often. This was so devastating to here. Fly high Beverly, I know you will be missed. ❤️*

“ *Bev, you meant so much to me and my family. You were always there when I needed advice on issues in my life. I could always count on you to be brutally honest, but I knew you were usually always right. You were like a Mom to me when I was in Texas. I will miss hearing “ hi Kiddo”. I love you Bev, till we meet again.*
