

Charles "Chuck" E. DeBlieux III

February 2, 1951 - November 20, 2019

Charles always introduced himself as Chuck. He began working within the automotive industry in 1985 for Standard Motor Products. Chuck was very charismatic and was able to easily form relationships with his customers and everyone he met. This ability quickly allowed him to become the lead trainer for all new hires within the company.

Chuck's management team was so impressed with his presence and "people skills" that he became their keynote speaker at the national sales meetings held annually. He continued his dedicated service for 35 years and flourished, recently retiring in May of this year.

According to Chuck his accomplishments would be the following: His 42-year marriage to his high school sweetheart and the love of his life, Krispin. The births of his 2 children, Jordan and Scoot. The subsequent births of his 2 grandchildren Kaegan and Jack.

Chuck was diagnosed with Parkinson's Disease about 22 years ago. His commitment to inspiring awareness, treatment options, fund raising and support to other patients and their families was amazing. He was instrumental in the formation of 2 local non-profit Parkinson's groups. One of their greatest accomplishments was the annual Parkinson's Walk for the Cure, held in New Orleans.

Chuck also started a Parkinson's support group here in Hammond. Parkinson's patients and their families attended. He set up speakers each meeting that shared the latest developments in the treatment of the disease. Most importantly these meetings gave all who attended a voice. Chuck traveled annually to Washington, D.C., to lobby for legislature changes and funding for Parkinson's research.

In lieu of flowers the family requests that a donation be made to the American Parkinson Disease Association in Chuck's memory. This can be done through the following website:

“ My husband was diagnosed of Parkinsons disease 2 years ago, when he was 59. He had a stooped posture, tremors, right arm does not move and also a pulsating feeling in his body. He was placed on Senemet for 8 months and then Siferol was introduced and replaced the Senemet, during this time span he was also diagnosed with dementia. He started having hallucinations, lost touch with reality. Suspecting it was the medication I took him off the Siferol (with the doctor’s knowledge) him on PD natural herbal formula we ordered from TREE OF LIFE HEALTH CLINIC, his symptoms totally declined over a 3 weeks use of the TREE OF LIFE HEALTH Parkinson's disease natural herbal formula. He is now almost 61 and doing very well, the disease is totally reversed! (w w w. treeoflifeherbalclinic .com)

“ I really Admired Chuck, because of all the years he had been fighting his illness.
He didn't give up even pushing ahead when things got harder for him.
He was a good Guy and I appreciate his friendship.
like I say, Who you are when you're alive is who you will reman after your life is over.
Heaven is getting a Good Fellow....
