“ I grew up with Jan living next door. He was 9 months younger than me. My brother, Billy, Jan, Lee and I would sit under the tree in their front yard, watching the fireworks from the Van Dyke drive-in. Margaret would make Wylers root beer for us and my Mom would make popcorn. Jan would tolerate the 'doll shows' that another neighbor, Linda and I would put on. There was a bad snow storm one year and Jan & Lee on one side of the fence, Billy & I on the other built the best fort to crawl in, but also walk over the top of the fence. Always playing in the pool or in the yard. I tried to race my bike like the boys, but ended up being the last one and even crashing a few times. So many fun childhood memories. Thank you, Jan, for being in my life, when we didn't have a care in the world, where things were simple, and we were just kids. Rest easy. Love, Kimmy

“ Jan was one of my BIG Brothers he was 3-1/2 years older than me. When we were young we shared a bedroom together that had bunk beds. We argued about who would get the top Bunk. I would run in and get in the top bunk first thinking I had it. But he would just come in and push me over the edge to the bottom bunk that lucky for me was a pull out so I landed on the bed and not the floor. As we got a little older I was always trying to tag along with Jan wherever he was going. That didn't work out so well. When your young 3-1/2 years is a big difference and who wants a little brother to be hanging around knowing everything you're doing and and some things that you shouldn't be doing. HAHA Can you say Blackmail.

When I was a teenager Jan was a Manager at Arthur Treachers Fish & Chips and he got me a job as a fry cook. Now he really was my boss!! LOL We had a lot of fun but I knew I better get another job soon before I got fired.

At the end of the day Jan always had my back and I knew I could always count on him if I needed him. When you get older 3-1/2 years age difference isn't anything.

Rest easy my brother you are always Loved and will be greatly missed.

“ Where do I begin? When you were a baby and I was a mere 10 yrs old, I remember heating up your GLASS milk bottles in hot water on the stove until Mom could orient herself to getting up at 2 am! -- 62 years ago! I couldn't bear to hear you cry! Once in school, I also remember helping you with Flash Cards (you were not thrilled with me playing teacher)! We didn't have the easiest life as kids, but we grew up in a loving house! You and younger bro, Lee were the babies of our brood of 7 kids! Somehow you grew up quickly and began working at age 15 to show your responsibility and help Mom out after you lost Dad when you were just 13 and Lee a mere 10 and the rest of us were out on our own then! We will never forget ALL our family holiday "POOL Parties" at Mom's! Those ~ were ~ the ~ Days!! We will NEVER forget your loving personality Jan! You will not be forgotten! RIP honey! Love ya (like we always said after every phone call!) Big Sis, Linda (3rd down the lineup)

“ Jan loved to cook, so when you cooked for him he would always say "if you would have done this.... It would be that much better" It was his kind way of helping you to make it better.  
My condolences to the family. His wife Kimberly Mills
