“ Where can I begin? Justine and I met each other over 30 years ago and immediately became and remained special friends all these years. I have never had, and probably never will develop a super special friendship like I have with Justine. She is definitely and one of a kind. We developed a unique bond and developed a non verbal communication in which one knew exactly what the other was thinking without saying a word and would go into hysterical laughter that would last for sometime 10 minutes. This incredible friendship is one I will definitely cherish forever, one that can never be duplicated and will be everlasting.
This is by no means "shoes/slippers" (you know what I mean) and definitely not Auf Wiedersehen, but simply till we meet again. Love and miss you kiddo. Have a few Zombies, the extra large ones

“ *Justine had an incredible and lasting impact on my teenage years. She mentored me through my first job, showing me kindness and a whole lot of patience. She taught me through example what it meant to be a kind life loving person no matter what life threw at you. I will always remember her with the utmost love and respect, and I know I'm not the only one.*

“ *I have so many memories of my friendship w/Justine while she lived in Berwyn (it wasn't Chicago) I remember when she & Joe wanted to adopt, I had to write a letter in their support and I did. My kids babysat for you girls when you were babies I missed her when she moved away but I was happy she found love and a fulfilling life. Rest in peace, Justine*
