“ Sorry for your loss. Ms Margaret came to our house back in the later 80's and earlier 90's to do my dad's dialyze. She was the only one that could handle him. I have very fond memories of the time she spent with our family. She was a very loving caretaker and will be miss by all.

This is her daughter Gale I loved your comment my mother gave the las 35 years of her life dedicated to Dialiyis patients and their family. She did this because she loved all of her patients and all of the family members that were involved she loved each and every patient and at their time of passing she trully mourned the loss of the patient she cared with true love and compassion the last 3 years she wasn't able to work and she missed her patients and still worried about so many. Many patients stayed in touch by phone and those who called made her happy to talk to them. She will be missed but never forgotten. Thank you for your comment her daughter Gale.
