“ On the evening of the 14th, we lost our youngest son Zack. He fought and we fought for him for 7 weeks. He succumbed from severe lung injuries due to vaping. Words cannot express the sadness and desolation of our loss. Zack had a heart of gold and would help anyone. Just a story to show you the type of person he is. The neighbor that lived next door to his grandmother was slowly fading due to Alzheimer's. He would go over sit with him and play pool. When the end was nearing, he snuck \$10 and walked up to St. Joseph's to turn in an intention card to have a mass said in his name. Parents, vaping is no alternative to cigarettes, it does not matter if it is water based, oil base or what flavoring is added. It all damages the lungs in a short amount of time. I encourage each of you to hug and love your babies every day, take pictures with them, create memories with them even when they become adults. You never know when they will be stripped from your life. Zack, over the past 7 weeks you and I have prayed together every day, told each other I love you multiple times. You held my hand every day and I am grateful that I was holding your hand as you began your journey to heaven. You are at peace now in heaven watching over us. I miss your smile so much. You will always be a part of our lives. I love you

*Zack was always so happy, and he sure smiled a lot for someone
who claimed they hated their smile. He was the life of the party and
always had others laughing and smiling. You were taken way too
soon. Praying for your family and loved ones right now. Love you
forever.*
